

mainepure

. . . . elegant storage solutions for a streamlined office

Maine are part of the prestigious Milton Keynes Pressings Group (MKP), therefore engineering excellence and a commitment to developing innovative product ranges is ensured. Mainepure is the latest development from Maine, a range of units which are strong and elegant, resulting in a more streamlined workspace.

Mainepure is manufactured to the same rigorous high standards as their successful Maineseries31 range. It can also fit alongside Maine's existing ranges to the same wide range of heights and widths. Mainepure has a clean, elegant facade and a flush, discreet label holder, which also acts as the drawer pull.

Mainepure has the same flexibility as Maineseries31 and Mainestream, uniquely these ranges can be modified during manufacture to meet precise, individual requirements. These ranges can be finished in any colour including standard ranges of BS, RAL, Pantone, Dulux Colour Dimensions and specialised paint finishes.

Mainepure is 98% recyclable with 40% recycled previously. Manufactured in the UK.
